Fund ESG Ratings

MSCI ESG Rating™:

Produced by MSCI ESG Research as of 03.06.24.

SFDR Classification

Please see the fund's [Sustainability-related disclosures](#) and [SFDR Pre-contractual Disclosures](#), available on our website, for more information. [Periodic Reports](#) are also available.

Fund Profile

Benchmark

MSCI World Index

Investment Objective

An equity fund which invests in global equities. The companies invested in will have, in the manager's opinion, innovation at the core of their business. The Fund is actively managed and uses the MSCI World Index as a comparator benchmark only.

Investment Case

Provides global exposure to companies benefiting from innovations in technology, communication, globalisation or innovative management strategies. Innovation can take many forms, not just disruptive tech-driven products. It is the intelligent application of ideas and is found in most industries and at different stages in company lifecycle.

¹Further details can be found in the fund's [Exclusion Policy](#), available on our website.

²Cluster munitions, landmines, and biological and chemical weapons.

³Companies that generate more than 30% of revenues via thermal coal extraction or thermal coal power generation.

⁴Excludes all tobacco producers and excludes companies that have a revenue contribution of 10% or more from tobacco-related products or services.

ESG Integration Summary

The investment team use a bottom-up ESG framework, developed in-house, to assess quantitatively the sustainability risk associated with current and potential underlying investments. Using the SASB materiality framework, the investment team have developed a scorecard that is used to evaluate a company based on various industry-specific ESG criteria. 'Materiality' and 'transparency' are two key components of the scorecard: the materiality component ensures the key risk factors to a company's operations are assessed, and the transparency component informs the team of the drivers of ESG scores at a granular level.

The investment team supplement this with a rigorous qualitative review, which features assessments of material risks and opportunities, good governance, executive remuneration, carbon transition, and exposure to negative externalities. Further information is available in the fund's Approach to Responsible Investment and ESG paper, available [here](#).

Fund Weighted Average Carbon Intensity (WACI)* in tCO₂e/\$M revenue

The fund's carbon intensity is measured and reported over time.

Source: Guinness Global Investors, CDP; Coverage: 100% (2021, 2022, 2023).

*The Weighted Average Carbon Intensity (WACI) metric is calculated by multiplying the carbon intensity (emissions relative to revenue in millions USD) of each fund holding by its portfolio weight (the value of the holding relative to the total value of the portfolio, excluding cash). Carbon intensity is based on Scope 1 and 2 emissions. Scope 1 emissions are direct greenhouse gas emissions from sources that are owned or controlled by the company. Scope 2 emissions are indirect greenhouse gas emissions from the generation of energy purchased by the company (Reference: GHG Protocol). Coverage refers to the percentage of the carbon intensity data available at the date of publication for underlying fund holdings (as a percentage of total assets excluding cash).

Stewardship

Stewardship activities are integral to the investment process applied by the team. We believe that resourcing our stewardship activities with the investment team itself, with dedicated assistance as required, is the best way to ensure effective stewardship. The investment team's ESG incorporation approach often informs their proxy voting and engagement activity. In a spirit of transparency, we disclose fund-level voting and engagement statistics and case studies for calendar year 2023 below.

Voting

The investment team make their own voting decisions based on their own research, supported by proxy voting research from Glass Lewis. All voting is undertaken by the investment team, with oversight provided by our Responsible Investment Committee. In order to vote, some markets require shares to be temporarily immobilised from trading until after the shareholder meeting has taken place (referred to as 'share blocking'). Some other markets require a local representative to be hired, under a Power-of-Attorney (POA), to attend the meeting and vote on our behalf. In such instances, it may sometimes be in clients' best interests to refrain from voting. But in all other circumstances we endeavour to exercise our voting responsibilities on clients' behalf. For more information, please see our Voting Policy, available on our website.

Voting Overview*	
Number of available proposals	539
% voted	95%
% did not vote	5%
Due to shareblocking	100%
% votes in line with management	72%
% votes against management	28%

Votes against management by topic (%)**

Audit/Financials	12%
Board Related	36%
Capital allocation	1%
Compensation	21%
Shareholder proposals	28%
Other	1%

**May not sum to 100% due to rounding.

*1st January 2023 to 31st December 2023

Voting Case Studies

In 2023, we voted against **Nike's** remuneration package for the third consecutive year. While we were pleased that Nike's Remuneration Committee had considered prior investor feedback to increase the performance-based element of the package, it remained heavily focused on Total Shareholder Return (TSR), the outcome of the long-term incentive plan (LTIP) entirely dependent on the performance of the metric. We believe the use of TSR as a sole metric is suboptimal, as we view share price appreciation as an output from better operational results rather than a target in itself. In addition, the Remuneration Committee's use of the S&P 500 as a benchmark was too broad to assess management performance and as such we would prefer a closer peer group/index.

In 2023, we supported a shareholder proposal that requested the **Visa** board appoint an independent Chair. We felt the separation of Chair and CEO roles had several benefits. These included ensuring a clear division of responsibility and accountability at the head of a company, reducing the concentration of power from any one individual, helping lead board discussions impartially, and providing oversight of CEO/executive performance. The proposal received 17.4% support. Whilst the reason is not clear, Alfred J Kelly Jr, who held both CEO and Chair positions at the time of the vote, stepped down from the Chair position in October 2023, making way for John F Lundgren, the Lead Independent Director at the time.

Engagement

The investment team focused their engagements in 2023 around executive remuneration, seeking to ensure management are incentivised appropriately to deliver high long-term returns on capital. For more information, please see the team's [Approach to Remuneration Paper](#).

Engagement Overview*	
Number of company interactions	31
Number of engagements	29
Engagements by topic	
Environment	38%
Social	7%
Governance	69%
Strategy***	41%

Source (table/graph): Glass Lewis; Guinness Global Investors (31.01.24)
*1st January 2023 to 31st December 2023

**In some cases, multiple topics are covered in a single meeting and the totals do not add up to 100%.
***Strategy includes disclosures, opportunities in sustainable products, positive impact, and regulation.

Engagement Case Studies

zoom

Zoom is a US communications technology company. We wrote to the company in 2023, acting as a 'lead signatory' on behalf of the CDP Non-Disclosure Campaign. As such, we were responsible for managing the correspondence between ourselves and Zoom, on behalf of Guinness Global Investors and other investors who had opted to be part of the campaign. We were encouraged to see Zoom participate in the 2023 CDP climate questionnaire. Zoom's participation in the questionnaire meant that, for the first time, all 30 holdings in the Guinness Global Innovators Fund submitted to CDP with respect to climate change.

INTUIT

Intuit develops and markets business and financial management software solutions. We continued our 2022 executive remuneration engagement with Intuit in 2023. We held a virtual meeting with the company to discuss areas we felt the remuneration packages could be improved. This included a lower weighting to Total Shareholder Return (TSR), which we view as an output of operational results rather than a target itself and increasing the performance period in the long-term incentive plan to encourage 'long-term' thinking.

Collaborative engagement

We are a member of **CDP**, which allows us access to environmental data for all companies that report to CDP. Through our membership, we participate in collaborative engagements, such as the **CDP Non-Disclosure Campaign (NDC)**. The NDC aims to drive further corporate transparency around climate change, deforestation and water security, by encouraging companies to respond to CDP's disclosure requests. In 2023, we joined the **CDP Science-Based Targets (SBT) Campaign**, to encourage portfolio companies to commit to and set 1.5°C-aligned science-based targets.

Initiatives

We participate in relevant industry initiatives to promote the proper functioning of markets, responsible investing, and the management of market-wide and systemic risk. Where appropriate, members of the investment team will use initiatives to engage collaboratively with portfolio companies.

External company ratings

Signatory of:

We became signatories to the United Nations Principles for Responsible Investment (UN PRI) in 2019, which provides external assurance on our stewardship approach broken down by activity.

In our latest Assessment Report, published in 2023, we received the following scores:

Policy Governance and Strategy

Direct - Listed Equity - Active Fundamental

Confidence Building Measures

Industry Initiatives

CFA UK's mission is to build a better investment profession by serving the public interest by educating investment professionals, by promoting and enforcing ethical and professional standards and by explaining what is happening in the profession to regulators, policymakers, and the media. A member of the investment team at Guinness is part of the Sustainability Community Champions group.

As the trade body for the UK investment management industry, the **Investment Association (IA)** seeks to represent the industry interests, improve the investment landscape through thematic initiatives, which highlight topics such as diversity and inclusion, and by improving standards and best practice.

The **Independent Investment Management Initiative (IIMI)** aims to contribute effective financial regulation and promote client-centred models of investment management. Our CEO, Edward Guinness sits on the board of IIMI.

We are public supporters of the **Task Force on Climate-Related Financial Disclosures (TCFD)**, and we seek to improved climate-related financial disclosure that is consistent, comparable, reliable, and clear to enhance our investment processes.

The **UK Stewardship Code 2020** sets high stewardship standards for those investing money on behalf of UK savers and pensioners. It comprises a set of 12 'apply and explain' Principles for asset managers and asset owners to demonstrate their stewardship role and performance.

The **UK Sustainable Investment and Finance Association (UKSIF)** aims to support its members to grow sustainable and responsible finance in the UK. It also seeks to influence policymaking that promotes the growth of sustainable finance. Our Responsible Investment Lead is a member of the Industry Development Committee, and another member of investment team serves on the Membership Committee.
