

Responsible Investment Factsheet

31.12.2023

This is a marketing communication. Please refer to the prospectus and KID/KIID for the Fund, which contain detailed information on the Fund's characteristics and objectives, before making any final investment decisions. All data as at above date, unless otherwise stated. Past performance is not a reliable indicator of future results.

Fund ESG Ratings

MSCI ESG Rating™:

Produced by MSCI ESG Research as of 26.01.24.

SFDR Classification

Fund Profile

Benchmark

MSCI World Index

Investment Objective

An equity fund that invests primarily in globally based companies principally engaged in the provision of asset management services.

The Fund is actively managed and uses the MSCI World Index as a comparator benchmark only.

Investment Case

Provides global exposure to the growth potential of asset managers. Successful asset managers can grow very rapidly, particularly in rising markets. Their risk-return characteristics are especially attractive, since they tend to require relatively little capital to grow. Asset management is also a growing global sector: assets under management are rising faster than underlying equity markets.

Controversial weapons²

Thermal coal³

Voting

Engagement

¹Further details can be found in our corporate [Exclusion Policy](#), available on our website.

²Cluster munitions, landmines, and biological and subject to 30% revenue threshold.

³Companies that generate more than 30% of revenues via thermal coal extraction or thermal coal power generation.

Fund Weighted Average Carbon Intensity (WACI)* in tCO₂e/\$M revenue

The fund's carbon intensity is measured and reported over time.

Source: Guinness Global Investors, CDP; Coverage: 100% (2021), 95% (2022), 100% (2023).

*The Weighted Average Carbon Intensity (WACI) metric is calculated by multiplying the carbon intensity (emissions relative to revenue in millions USD) of each fund holding by its portfolio weight (the value of the holding relative to the total value of the portfolio, excluding cash). Carbon intensity is based on Scope 1 and 2 emissions. Scope 1 emissions are direct greenhouse gas emissions from sources that are owned or controlled by the company. Scope 2 emissions are indirect greenhouse gas emissions from the generation of energy purchased by the company (Reference: GHG Protocol). Coverage refers to the percentage of the carbon intensity data available at the date of publication for underlying fund holdings (as a percentage of total assets excluding cash).

Stewardship

Stewardship activities are integral to the investment process applied by the team. We believe that resourcing our stewardship activities with the investment team itself, with dedicated assistance as required, is the best way to ensure effective stewardship. The investment team's ESG incorporation approach often informs their proxy voting and engagement activity. In a spirit of transparency, we disclose fund-level voting and engagement statistics and case studies for calendar year 2023 below.

Voting

The investment team make their own voting decisions based on their own research, supported by proxy voting research from Glass Lewis. All voting is undertaken by the investment team, with oversight provided by our Responsible Investment Committee. In order to vote, some markets require shares to be temporarily immobilised from trading until after the shareholder meeting has taken place (referred to as 'share blocking'). Some other markets require a local representative to be hired, under a Power-of-Attorney (POA), to attend the meeting and vote on our behalf. In such instances, it may sometimes be in clients' best interests to refrain from voting. But in all other circumstances we endeavour to exercise our voting responsibilities on clients' behalf. For more information, please see our Voting Policy, available on our website.

Voting Overview*	
Number of available proposals	388
% voted	84%
% did not vote	16%
Due to shareblocking	100%
% votes in line with management	76%
% votes against management	24%

Votes against management by topic (%)**

- Audit/Financials 14%
- Board Related 43%
- Capital allocation 5%
- Compensation 36%
- Shareholder proposals 1%
- Other 1%

**May not sum to 100% due to rounding.

*1st January 2023 to 31st December 2023

Voting Case Studies

In April 2023, we voted against James Cracchiolo, the CEO-chair of **Ameriprise Financial**, a US diversified financial services company. Although a common governance structure in the US, we prefer separated CEO and Chair roles, and feel more comfortable when there is a Lead Independent Director ("LID") present to act as a counterbalance. A LID was present, however his 18-year board tenure called into question his independence.

Liontrust is a specialist investment manager. In September 2023, we voted against its remuneration report along with 46% of shareholders. We were concerned with the significant increase to CEO/CFO base salaries, and a long-term incentive structure that overemphasised share price. Management's stock ownership already aligned them with shareholders, and we felt operational metrics, such as return on invested capital (ROIC), would be more informative day-to-day.

Engagement

The investment team focused their engagement in 2023 around executive remuneration, seeking to ensure management are incentivised appropriately to deliver high long-term returns on capital.

Engagement Overview*	
Number of company interactions	2
Number of engagements	2
Engagements by topic	
Environment	0%
Social	0%
Governance	100%
Strategy***	50%

Source (table/graph): Glass Lewis; Guinness Global Investors (31.01.24)
*1st January 2023 to 31st December 2023

**In some cases, multiple topics are covered in a single meeting and the totals do not add up to 100%.
***Strategy includes disclosures, opportunities in sustainable products, positive impact, and regulation.

Engagement Case Study

BlackRock.

We contacted **BlackRock** in November 2022 to query the degree of discretion featured in some elements of its executive remuneration packages. We were reassured over a call in February 2023 to hear that the discretionary adjustments are made available to the remuneration committee to compensate for exogenous market fluctuations, outside of management’s control, that can influence corporate performance.

Collaborative engagement

We are a member of **CDP**, which allows us access to environmental data for all companies that report to CDP. Through our membership, we participate in collaborative engagements, such as the **CDP Non-Disclosure Campaign (NDC)**. The NDC aims to drive further corporate transparency around climate change, deforestation and water security, by encouraging companies to respond to CDP’s disclosure requests. In 2023, we joined the **CDP Science-Based Targets (SBT) Campaign**, to encourage portfolio companies to commit to and set 1.5°C-aligned science-based targets.

Initiatives

We participate in relevant industry initiatives to promote the proper functioning of markets, responsible investing, and the management of market-wide and systemic risk. Where appropriate, members of the investment team will use initiatives to engage collaboratively with portfolio companies.

External company ratings

Signatory of:

We became signatories to the United Nations Principles for Responsible Investment (UN PRI) in 2019, which provides external assurance on our stewardship approach broken down by activity.

In our latest Assessment Report, published in 2023, we received the following scores:

Policy Governance and Strategy

Direct - Listed Equity - Active Fundamental

Confidence Building Measures

Industry Initiatives

CFA UK's mission is to build a better investment profession by serving the public interest by educating investment professionals, by promoting and enforcing ethical and professional standards and by explaining what is happening in the profession to regulators, policymakers, and the media. A member of the investment team at Guinness is part of the Sustainability Community Champions group.

As the trade body for the UK investment management industry, the **Investment Association (IA)** seeks to represent the industry interests, improve the investment landscape through thematic initiatives, which highlight topics such as diversity and inclusion, and by improving standards and best practice.

The **Independent Investment Management Initiative (IIMI)** aims to contribute effective financial regulation and promote client-centred models of investment management. Our CEO, Edward Guinness sits on the board of IIMI.

We are public supporters of the **Task Force on Climate-Related Financial Disclosures (TCFD)**, and we seek to improved climate-related financial disclosure that is consistent, comparable, reliable, and clear to enhance our investment processes.

The **UK Stewardship Code 2020** sets high stewardship standards for those investing money on behalf of UK savers and pensioners. It comprises a set of 12 'apply and explain' Principles for asset managers and asset owners to demonstrate their stewardship role and performance.

The **UK Sustainable Investment and Finance Association (UKSIF)** aims to support its members to grow sustainable and responsible finance in the UK. It also seeks to influence policymaking that promotes the growth of sustainable finance. Our Responsible Investment Lead is a member of the Industry Development Committee, and another member of investment team serves on the Membership Committee.
